890022	CryoClose™ Freezing Bag PL-500 + CryoClose™ Overwrap Bag PL-500	500 ml	70 – 150 ml
890023	CryoClose™ Freezing Bag PL-800 + CryoClose™ Overwrap Bag PL-800	800 ml	150 – 230 ml

  
**0482**

Sterilized by Irradiation

Identification: Pouch for insertion of a temperature resistant label

Materials in touch with fluid path:

Bag, tubes, ports: EVA

Connectors: PP, Stoppers: Nylon, PP

Tube for sterile Docking: PVC (not suitable for contact to DMSO)

Material overwrap bag: EVA, inside rib surface for ease of vacuum sealing

**Lengths of all EVA tubes of a freezing bag allow a sampling volume of approximately 3 ml for separate storage options.**

Two twist off ports for withdrawal

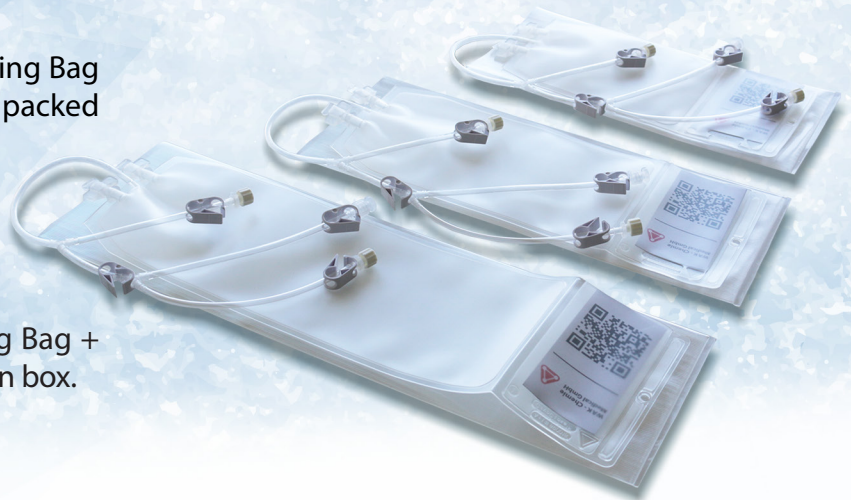

suspension by spike or syringe

Eyelet for hanging freezing bag

Packing in double pouch: Each CryoClose™ Freezing Bag together with one CryoClose™ Overwrap Bag is packed into one sterile barrier pouch.

Each such sterile barrier pouch is sealed into one outer transparent protective pouch for clean room introduction.

28 pairs of double pouched CryoClose™ Freezing Bag + CryoClose™ Overwrap Bag are packed in one carton box.
